Main Street Station

1500 East Main Street

For directions to the meetings, please visit www.rich2hrrail.info.

During the Alternatives Development Meetings, the study team will present the first round of conceptual rail alternatives that address the transportation needs within the study area. The conceptual rail alternatives and evaluation criteria were developed from citizen and government agency participation during the Citizen Information Meetings held in the spring of 2004.

Your involvement at these meetings is highly valued. The study team needs your input as we move forward to evaluate and refine these alternatives. If you require special assistance to attend and participate in these meetings, please call 48 hours in advance of the meetings – 1-877-742-4247.
